- **【Super Compatibility】** The Tesla Adapter J1772 is compatible with All J1772 EVs, making it the best choice for Tesla to J1772 charging adapter. It works with all Tesla

chargers(excluding Tesla supercharger), including Tesla Wall Connector, Destination Chargers, Tesla Mobile Connector and Tesla Mobile Charger.

- **【Charge Faster】** This Tesla J1772 Adapter supports a maximum current power of 60A and a maximum voltage of 250V AC. It can fully charge your car in the shortest amount of time, minimizing wait times.
- **【Safety Protection】** NEXPOW adapter has passed the safety certification of CE and FCC, ensuring the safety of your charging experience. The safety anti-theft lock is designed with an anti-fall feature, ensuring a secure connection to the charger during charging.
- **【Suitable For Any Condition】** This J1772 Adapter is equipped with an IP65 waterproof function, allowing it to be used in rainy or snowy conditions. It is also heat-resistant up to +50°C (+122°F) and cold-resistant down to -30°C (-22°F), making it suitable for use in various extreme weather conditions.
- **【24 Months Warranty】** We provide a 24-month product warranty service. If you encounter any issues with the product, please don't hesitate to contact us for a resolution. We are here to assist you.

Suitable For All Seasons

IP65

122°F

-22°F

Use Instructions

1.Connect Adapter and Lock Charging Gun about 30 Seconds

2.Plug Adapter into The J1772 Port and Lock it Then Start Charging

3.Release Plug When Finished

Works like it should

Sturdy, looks good and a good value. Only grip is that on occasion you have to really fight to get the charger out. But overall worth it.

Phindog

Does the job but a little flimsy

This product does hold a Tesla charging cable just fine. My only complaint is that it seems a little flimsy and possibly prone to breaking. Also, if you aren't mounting this on drywall, the provided screws without the anchors didn't seem to be sturdy or large enough for mounting on a wood stud. I substituted my own wood screws.

Jeff M

Well built

Holder is nice. Screws that were included were cheap and broke while tightening. Had to replace screws.
